

The peanut-butter turkey

If your oven breaks down on Thanksgiving morning this is what you should do.

First dip your turkey in peanut-butter.

Next you stick your turkey in the shower.

Then turn on the shower.

After that flush the toilet 1000 times.

Finally eat your turkey and enjoy it.

Make sure the temperature is 900 degrees and cook it for 40 hours.

Before cooking add peanut-butter,
and jelly.

Serve the turkey with peanut-butter, and ice cream.

The turkey will smell like cinnamon cookies.

Look and smell before eating.

It will taste like jelly and marshmallows.
