

# The creepy eyed monster

Once upon a time there lived a monster named the Eyedmonster. He had very sharp teeth. He lived in a haunted castle a long long long time ago. He hated kids and people. He ate very poor animals. And he was hairy too.

Ghosts crept around the halls. The haunted castle was very scary and very haunted. There was vampires.

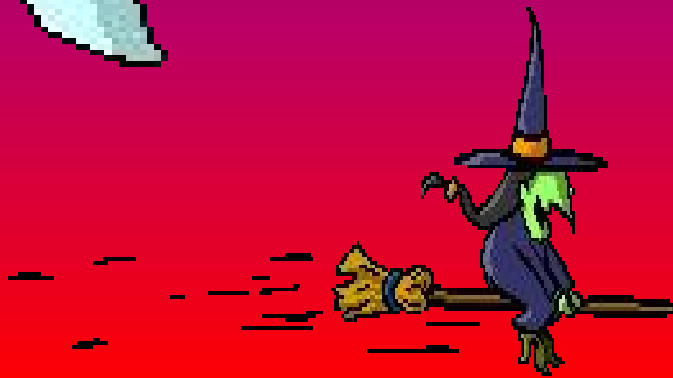

There were Ghosts, monsters, bats, spiders. There was scary sounds and music. They read long vampire and monster books.

Then one day he was spying on a little girl named Sis. She was jealous of her brothers big two wheel beautiful bike. Then in the night the eyed monster went into sissy's room. And he whispered hey sissy ride your brothers bike.

So she did. She almost got hit. Until her parents saved her. And so the eyed monster ran away.

And so the parents went to the  
monsters castle. They rang door bell  
ding dong dong ding dong dong.  
The monster opened the door. And  
said (( go away !)) the parents said  
we want to teach you how to be  
nice. And the monster said okay.

So the parents helped the monster and so the eyed monster became a nice eyed monster. So the parents said goodbye. And they finally went home. The monster was happy. And they all lived happily ever after. The end.
