

Friend's House

If your oven breaks down on Thanksgiving morning this is what you should do.

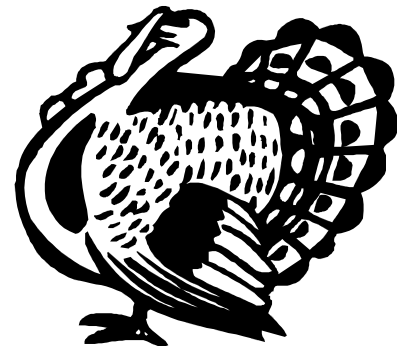

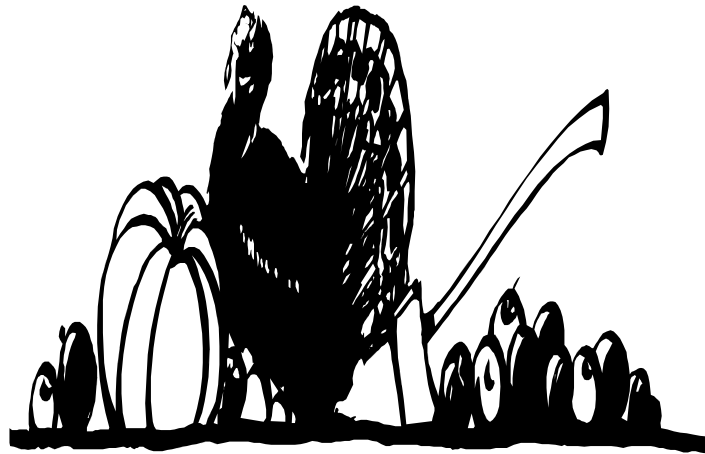

First if my oven breaks I will go to my friends house.

Next I will go outside and my mommy will cook.

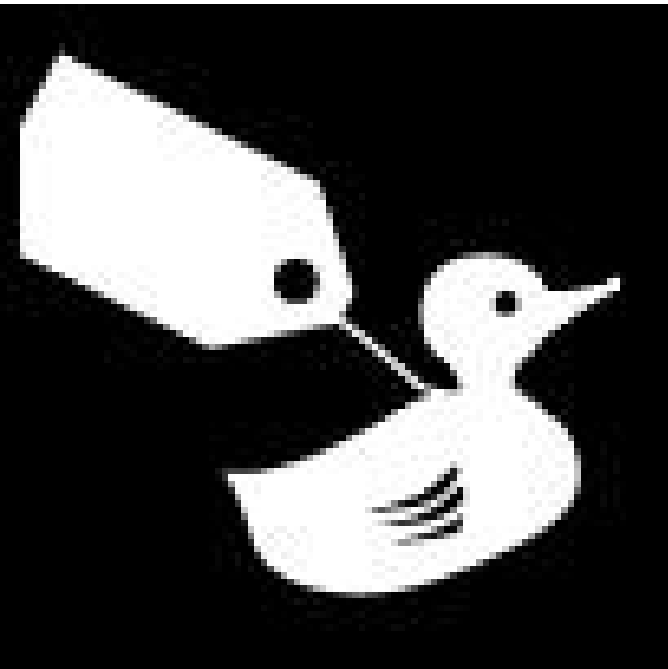

Then I will go inside to eat the turkey.

After that I will go to the pool with my friends.

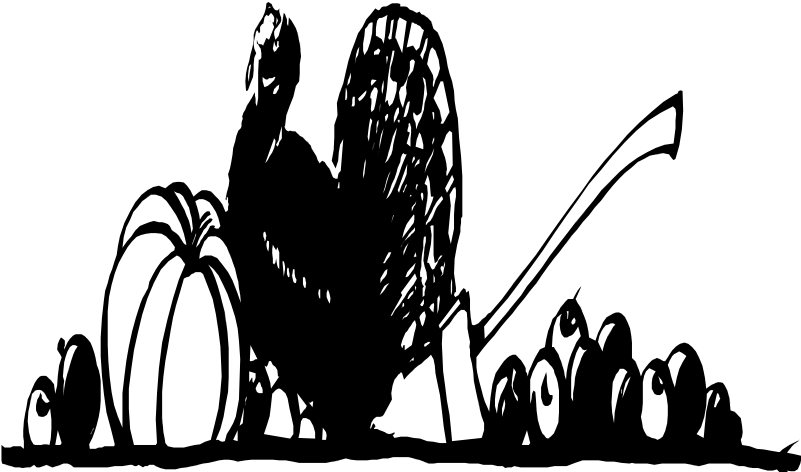

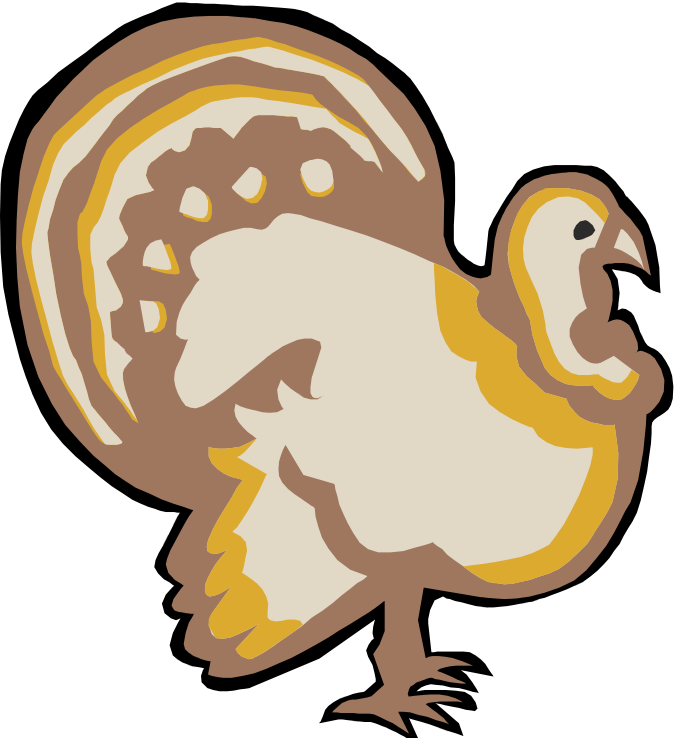

Finally it will taste bad.

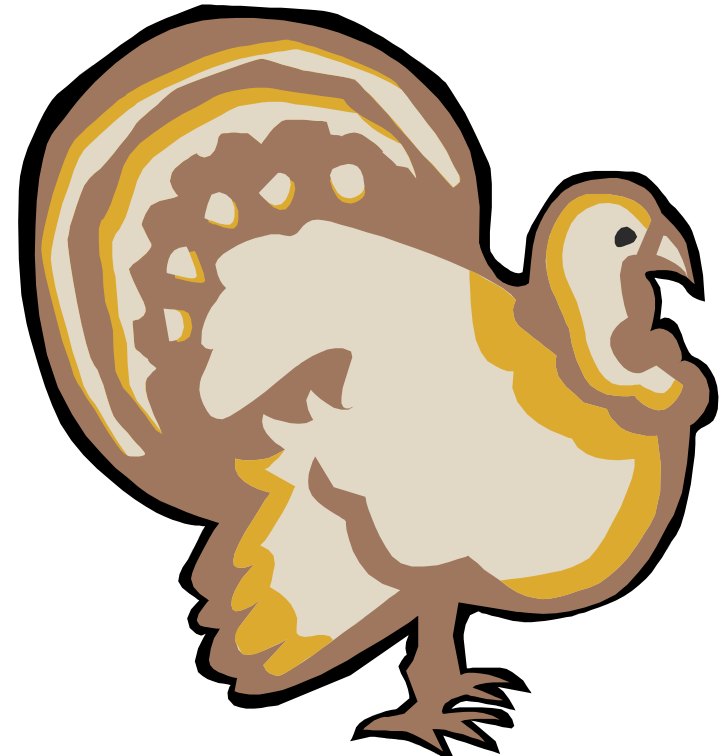

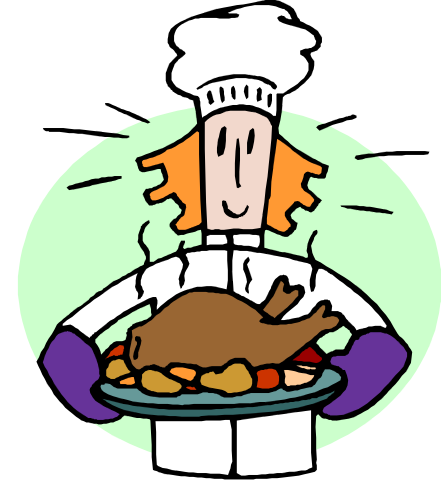

Make sure the temperature is three thousand degrees and cook it for ten hours

Before cooking add salt and pepper.

Serve the turkey with broccoli and salsa.

The turkey will smell disgusting.

Look there's another turkey.

and taste bad.
