

# Thanksgiving

If your oven breaks down on Thanksgiving morning this is what you should do.

First FROST THE TURKEY IN THE BATH TUB

..

Next THACK THE TURKEY OUT OF THE BATH..

Then AND I COOKED IT ON THE GRILL AND I GAVE IT TO THEM ..

After that GET OUT THE TURKEY ..

Finally EAT IT ....

Make sure the temperature is 10 degrees and cook it for 1 HOUR.

Before cooking add SHALT +  
LOTS OF PEPPER AND GRAVY .

Serve the turkey with GRAVY  
AND MASH POTATOS AND  
PUMKIN PIE..

The turkey will smell GREAT

Look GREAT

and taste DILLISUS
