

THANKING

If your oven breaks down on Thanksgiving morning this is what you should do.

First I wOULD go to my Grandpa, Dad, Grandma To Use There OVEN OR USE YOUR GRANDPARENTS.

Next GO TO THE STORE TO GET THE TURKEY TO THE HOUSE.

Then COOK IT IN THE OVEN.

After that GET THE STUFF READY.

Finally TAKE THE TURKEY OUT.

Make sure the temperature is 60 degrees and cook it for 2 hours.

Before cooking ADD STUFFING,
PEPPER AND SALT.

Serve the turkey with apple pie
AND pot pie.

The turkey will smell good
Look good and taste good.
