

Gobble gobble gobble

If your oven breaks down on Thanksgiving morning this is what you should do.

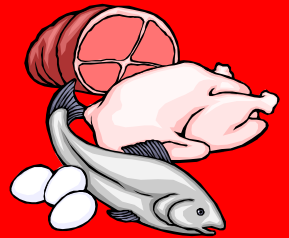

First go get Luke and Obe Won.

Next tell them to put there light sabers on it.

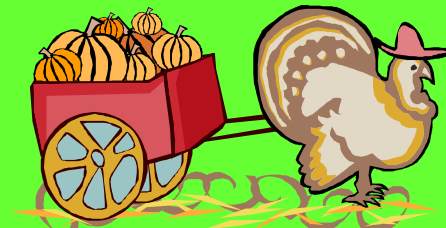

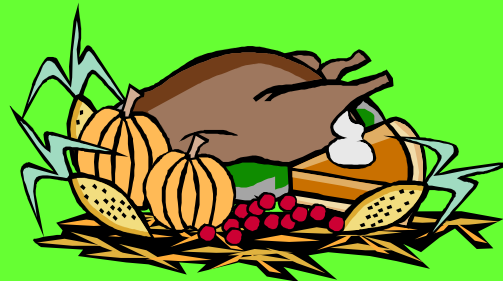

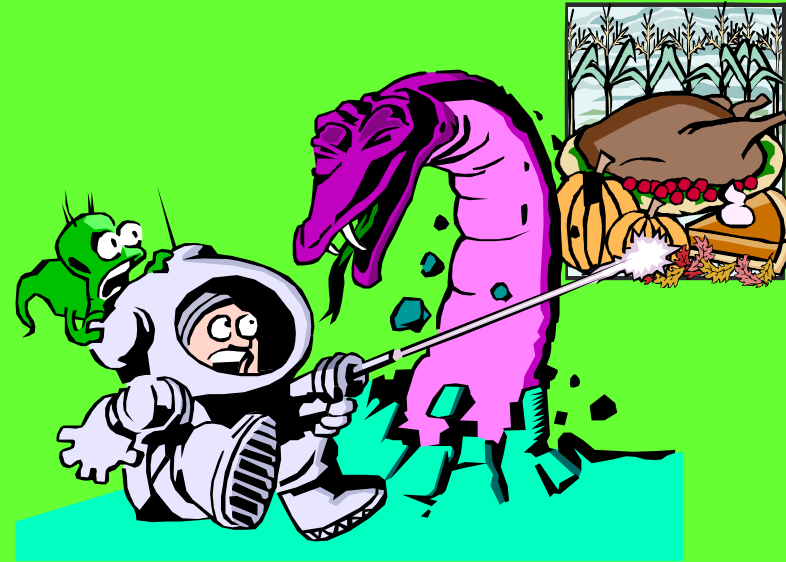

Then they have too do it for one hour.

After that maybe they will have to call a friend.

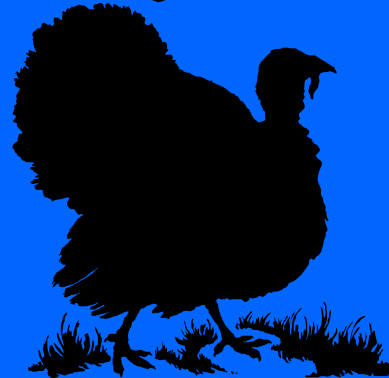

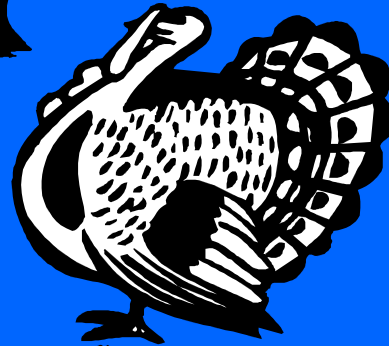

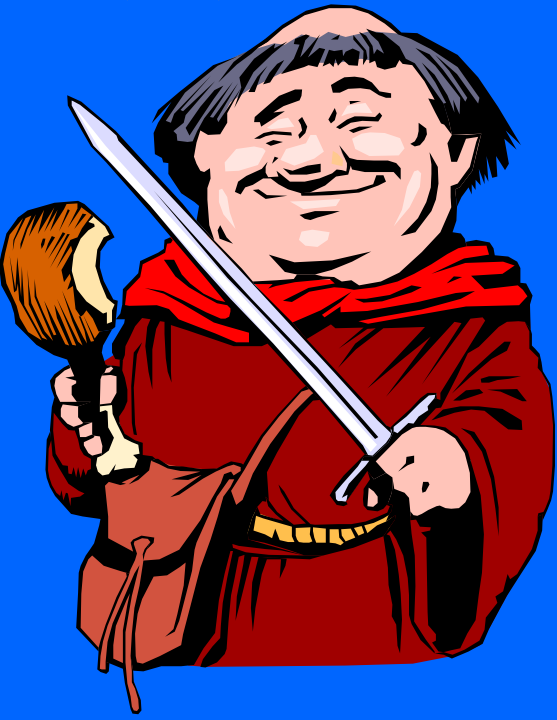

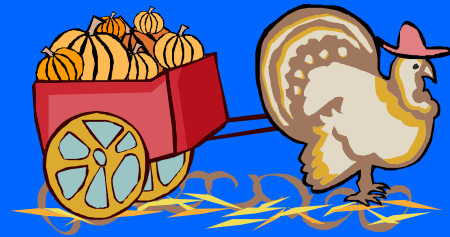

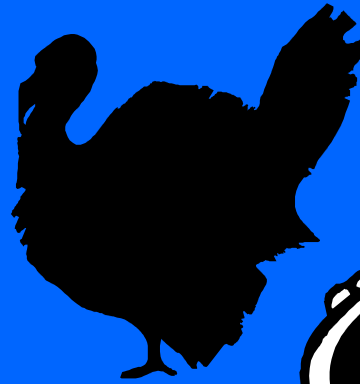

Finally it will be done. Share it with mom and dad.

Make sure the temperature is 1000 degrees and cook it for 10 hours.

Before cooking add salad ice crème
and salt and sausage and candy and
soup.

Serve the turkey with soup and chicken.

The turkey will smell delicious
Look super and taste goooooood.
