

# Haunted House School

Angie lives in a haunted house. It has ghosts and spider webs and a principal.

Angie lives in a haunted house she likes to scare kids every single day when the kids come at school even when the kids come in the classroom. Angie was the student in the haunted house and there was a ghost and spider webs everywhere in the class room.

And the teacher was a skeleton and the principal was a ghost and Angie was a monster and the kids were werewolves and every body was a ghost.

And the principal was dancing  
when the teachers sing a song.  
Not every day some times but  
not all the time.

the end
