

Scream

by Angel

Once upon a time there was a ghost named Scream. He jumped over people. His enemies are good guys. So they hide from him. They thought he was not real but he was real.

He lived in a haunted museum. Scream climbs a lot. He runs fast. He eats stuff like glass. He breaks stuff. Scream is mad because someone broke his vase and flowers.

His family was sleeping. Their dog got out. The family said where is my dog. The dog was missing. The dog was far away. The family was scared that Scram would find him.

We took Scream's mask off. It was my brother. He brought back my dog so we asked him to stay. We all lived together. Scream made food for the family. They played games. Scream lost but he is not mad. They lived happily ever after.
