

Broken oven

If your oven breaks down on thanksgiving morning this is what you should do. Get a live turkey. Don't let it get away. Make a fire in the tub. Get a pot of water and put the turkey in the pot. And cook him really good.

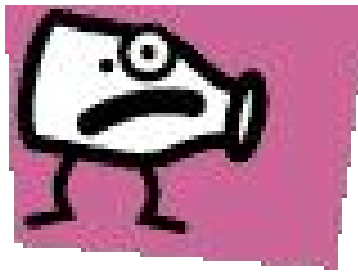

Make sure the temperature is 10,000 degrees and cook the turkey for 40 hours.

40

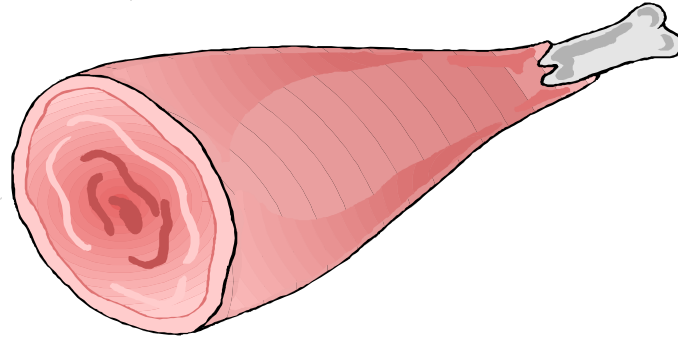

10,000

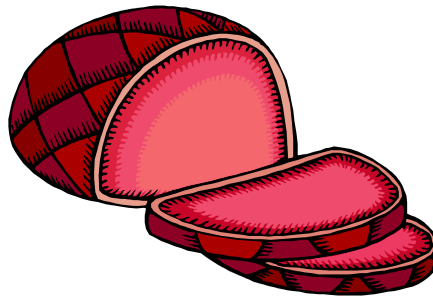

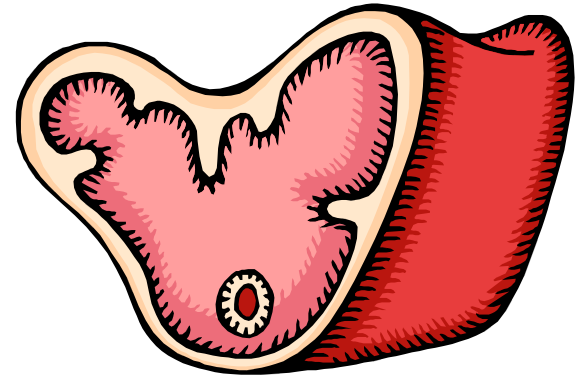

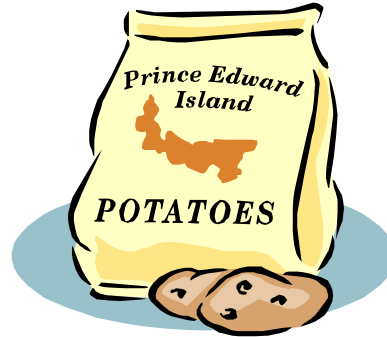

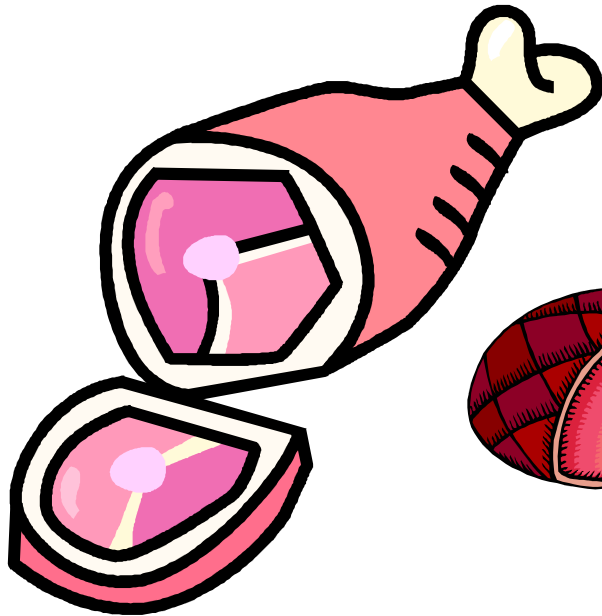

Before cooking add cookies and milk and ice cream and eggnog.

Serve the turkey with potato's and ham.

The turkey will smell good. Look tasty . And taste good. Have a happy thanksgiving. The End
