

# Alex's Best thanksgiving

If your oven breaks down on Thanksgiving morning this is what you should do. First fix the oven, then put the turkey on the dish, then add pizza then add chocolate then put in the Italian dressing then put in soda after that add root beer then add ham.

Make sure the temperature is 1,000,000 degrees. Cook the turkey for 40 hours.

Before cooking add chili and salt seasoning and add whipped cream. Serve the turkey with hot dogs and carrots and corn

The turkey will smell good, look good and taste good.
