

# LION

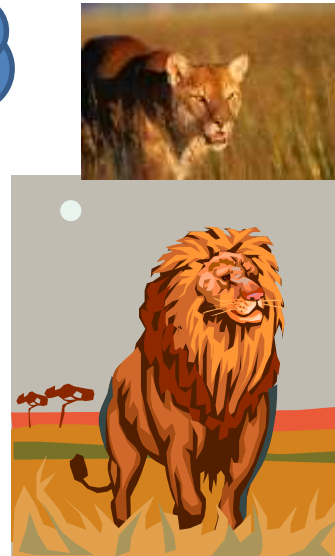

Lions have sharp teeth. Lions are strong. Lions are loud.  
Lions, cats, tigers & cheetahs are all in the cat family.

I am not  
creepy

This is what a lion sounds like, “Rooooooar.” I studied the African lion. Sometimes Lions eat people.

Lion are creepy because they have sharp teeth and sharp claws . Lions can live over 7 years. Lions can be dangerous. I like lions because they are cool. I am done.
