

Veterans' Day

by: Chantal, Linus, and Andrew

Veterans' Day became a federal holiday on May 13, 1938. Veterans' Day is always on November 11, no matter what day of the week it falls on. Veterans Day honors men and women who have served in the United States armed service. In 1919, President Woodrow Wilson proclaimed November 11 as Armistice Day to remind Americans of the tragedies of war. In 1954, congress changed the holiday's name to Veterans Day to honor all United States Veterans.
