

Alistair in Outer Space

This book is about when Alistair was going to school but Alistair got taken by Aliens . The main characters are Alistair and the aliens. Alistair got taken by aliens when he was trying to go to school. Alistair was late because he got taken by Aliens. Alistair got taken to outer space. Alistair was my favorite character because he is very smart and he got taken to outer space.

Alistair is just like me because he is very smart
just like me. I am like Alistair

because he loves Rocket ships and Aliens. Alistair
was like me when I was a very little baby. And he is
as smart as my teenage brother.

I really liked this book. My favorite part of this
book was when Alistair was taken to outer space.
My least favorite part was when Alistair was late
for school. If I could change a part of this book it
would be when Alistair was late for school.

I would recommend this book to my brother. I think
anyone would love or enjoy this awesome book.
