

Creepy Crawlers

The goliath tiger fish weighs 154 lb. The fish has 32 jagged razor teeth, each tooth is one inch long. The goliath is a state of the art mayhem machine. It can slice a 60 lb. catfish in half. A goliath uses more energy for killing than breeding. The goliath only eats live bait. They have 10 to 15 years of life. It eats small crocs and its up to 15 feet long.
