

# mouse soup

This is a review of the book Mouse Soup.

This book is about a mouse and a weasel

And the weasel just caught the mouse.

He was trying to escape but he couldn't.

He had lots of adventures the mouse is my favorite character. And he did a good

Job on escaping.

I like bees BUT! My mom calls me *Bumblebee*.  
Also I like bees and I read books just like mouse.  
And I never done something like mouse.

I really liked this book. My favorite part is when the mouse told a story because I like stories to.

I would definitely recommend this book to a kid in my school.
