

Alligator

I studied the alligator and I think it is the creepiest creature on earth. I think it is creepy because alligators have razor sharp teeth that they can eat you with. The alligator has tough sharp skin that is its armor. Alligators are 10-15 feet long and weigh up to 1,000 pounds. A hungry alligator can eat small animals and even humans! These are all reasons why I think the alligator is the creepiest creature on earth. By Samuel
